I. SPECIFICATIONS

I.1. Introduction

Directive 2004/49/EC on the safety of the Community's railways¹, adopted in 2004 as part of the second package (hereinafter referred to as the 'safety directive'), puts in place a harmonised framework and approach to rail safety and establishes roles and responsibilities of key rail actors in the safety field (see articles 4(3) and 4(4)).

The safety directive has been recently amended by Directive 2008/110/EC² introducing the obligation to assign an entity in charge of maintenance for each vehicle used on the network. Without prejudice to the responsibility of railway undertakings and infrastructure managers for the safe operation of a train, the entity should ensure that the vehicles it is in charge of are in a safe state of running, by means of a system of maintenance. The Commission is about to adopt measures establishing a system of certification of the entity in charge of maintenance for freight wagons. Certifications will be delivered by a body accredited or recognised or by a national safety authority. The entity in charge of maintenance would either carry out all functions and operations of maintenance itself, or make use of subcontractors, such as maintenance workshops. However, this entity remains the main responsible for the safe state of running of the vehicles it is in charge of. These measures will introduce a certification system for some players in the chain, each of them having a specific role in ensuring the safe state of running of any vehicle.

Following the tragic train accident in Viareggio of 29 June 2009, the European Commission organised a conference on railway safety on 8 September 2009. The conference highlighted different views on the question of the responsibilities of different actors throughout the railway transport chain. In the action plan drawn up by the European Railway Agency following the conference, the European Commission has undertaken to further clarify the responsibilities of each actor, from the manufacturer to the loading /unloading, including the railway undertaking, the infrastructure manager, the wagon keeper, the entity in charge of maintenance of the wagon, and other actors involved.

I.2. Purpose of the contract

Article 4 of the safety directive clearly indicates the main responsibility for the safety of the system to be taken by infrastructure managers and railway undertakings, each for their own part of operation. However, this does not mean that other relevant players of the chain do not have responsibilities for their services, including but not limited to the following:

- The manufacturer of different parts of the rail system, which carries a responsibility for the design of equipment;
- The wagon keeper who manages a fleet of vehicles as economic business;
- The rolling stocks leasing companies and the suppliers of competent human resources, such as drivers and other crew;

¹ OJ L 164, 30.4.2004, p. 44

² OJ L 345, 23.12.2008, p. 62

- The entity in charge of maintaining a vehicle and eventual subcontractors for maintenance suppliers;
- The loader and unloader of the goods in the case of freight transport;
- Station managers, charterers and passengers;
- Infrastructure design, manufacturing, construction and maintenance.

On the public authority's side, National Safety Authorities are responsible for enforcing and monitoring safety, as well as for delivering safety certificates to infrastructure managers, to railway undertakings, and, if so decided by Member States, to entity in charge of maintenance.

Taking into account the increasing complexity of the railway transport chain, the issue of responsibilities need to be further analysed.

The main purpose of this investigation is, on the one hand to provide guidance to the various rail players on how responsibilities should be assumed, taking into account of how the safety directive is actually implemented in Member States and in accordance with existing case law. On the other hand, the study should provide a critical assessment of the established approach to safety, taking also account of its comparison with other transport sectors. The conclusions should include recommendations on how to make this approach evolve. Eventually, the conclusions of the study could be used as a basis for reviewing principles concerning responsibility as set in article 4 of the safety directive.

Task 1: research and analysis of the present situation

- a) The study shall start by identifying the players of the railway transport chain that may carry a part of responsibility in case of accident, loss or damage and their operational practices as far as safety management is concerned.

To this aim, the consultant in charge may refer to any legislation on the EU territory (national, EU in force or in the adoption phase, OTIF, OSJD, etc.), as well as voluntary rules applied by stakeholders through general contracts and agreements (such as the GCU or SMPS/SMGS³). He may also refer to legislation in force in matter of safety of transport of dangerous goods. Annex II of Directive 2008/68/EC of the European Parliament and of the Council of 24 September 2008 on the inland transport of dangerous goods, also allocates a number of responsibilities to different actors (see also the RID regulation in Appendix C to the COTIF)⁴.

Then, the consultant shall assess the responsibility allocation among the different players of the railway transport chain⁵. To obtain a comprehensive assessment, the consultant shall

³ Agreement on International Passenger Traffic (SMPS) and Agreement on International Freight Traffic (SMGS)

⁴ An “*Analysis of the interaction and coherence between railway and dangerous goods legislation in the European Union*” will be undertaken to determine if the scope of the EU legislation for railway transport in general and specific rules for transport of dangerous good by rail are compatible and to identify the possible overlaps. This study will be undertaken in the framework of a separated open tender and does not need to be developed in the present study.

⁵ A “*Study on EU Member States’ national civil liability regimes in relation to rail accidents between Railway Undertakings and Infrastructure Managers in so far as they may present a barrier to the internal market*” has been already undertaken and this topic does not need to be developed in the present study.

analyse how article 4 of Directive 2004/49/EC has been implemented in Member States and the jurisprudence related to some recent railways accidents.

- b) The consultant shall develop a guide on the best practices (e.g. how to improve the safety management system) to help various actors to discharge their respective levels of responsibility.

Task 2: final report and recommendations

- a) The consultant in charge shall consolidate the material collected during the *Task 1a* to develop a synthesis in view of improving the present legal approach to safety responsibilities. This synthesis shall underline the critical points in the implementation of the safety directive in the Member States and eventual inconsistencies between the ‘spirit’ of the directive and its actual application in the light of operational practices of the players.

More specifically, the consultant shall individuate not only the points that could be improved by the actors through best practices (used in *Task 1b*) but also the critical points that seem due to insufficiencies or to a lack of flexibility of the present EU legal approach.

- b) To complete the study, the consultant shall:
 - undertake a comparison with the allocation of responsibilities in the maritime and aviation sector;
 - analyse several test cases (minimum three), flagging the critical points where inconsistencies seem hardly avoidable;
 - draft recommendations accordingly.

The results will be presented and discussed in a workshop with the stakeholders, with the purpose to complete and to consolidate the guide (*Task 1*) and to discuss preliminary results of *Task 2*.

The proposed recommendations may contribute to future policy in this area.

I.3. Reports and documents to produce - Timetable to observe

Execution of the tasks begins after the date on which the Contract enters into force.

In principle, the deadlines set out below cannot be extended. The Contractor is deemed solely responsible for delays occasioned by subcontractors or other third parties (except for rare cases of *force majeure*). Adequate resources and appropriate organisation of the work including management of potential delays should be put in place in order to observe the timetable below.

A **kick-off meeting** will take place at the Commission’s premises in Brussels, at the latest 30 calendar days following the signature of the contract, in order to settle all the details of the study, including the modalities on reporting and communication on the progress, to be undertaken.

An **interim meeting** during which the contractor will present the interim findings will be held within 5 months following the signature of the contract. It will be organised at the Commission’s premises in Brussels.

A **final meeting** during which the contractor will present the draft final study report will be held within 10 months following the signature of the contract. It will be organised at the Commission's premises in Brussels. During the meeting the organisation of the Public Workshop defined below will be finalised.

A **Public Workshop** will be organised, at the request of the Commission services, by the contractor on the final report. The contractor will organise a one-day workshop bringing together stakeholders, with the aim to present the conclusion of the study and consolidate the guide. The workshop will take place in Brussels at the Commission's premises. The organisation of the workshop, including invitations to participants, the presentations, the moderation, the reporting, will be the responsibility of the contractor. The contractor will bear some related costs (travel and subsistence expenses of 2 invited experts and of contractor's own staff). The other participants will bear their own costs of travelling, lunch and accommodation. Booking arrangements, rental of a conference room, lunch/catering, will not be born by the contractor.

The contractor shall prepare the final study report on the basis of the outcome of the final meeting and of the workshop.

1.3.1. Interim reports

Preparatory documents for the kick-off meeting, including a draft meeting agenda, study objectives, methodology, resources and timetable, a draft (but detailed) **outline of the study report**, to be delivered to the Commission's services one week before the kick-off meeting. It will answer the basic questions: "*Who? What? How? By when?*"

Kick-off meeting report, that will contain the minutes of discussions and agreements reached in the kick-off meeting. It will be accompanied by the updated preparatory documents mentioned above in accordance with the indications provided by the Commission during the inception meeting. The inception report shall be made available to the Commission's services one week after the kick-off meeting. The Commission shall have two weeks from receipt to approve or reject the inception report. Within two weeks of receiving the Commission's observations, the Contractor will submit additional information or another report.

The **Draft Interim study report** shall be made available to the Commission's services one week before the interim meeting. It shall contain at least the results of the Tasks 1a and 2a and some indications on how the consultant intends to undertake the Tasks 1b and 2b. The test cases to be analysed in Task 2b should be identified.

Interim meeting report, that will contain the minutes of discussions and agreements reached in the interim meeting. It shall be made available to the Commission's services one week after the interim meeting.

Interim study report, updated in accordance with the indications provided by the Commission during the Interim meeting shall be made available to the Commission's services two weeks after the interim meeting. The Commission shall have twenty days from receipt to approve or reject the report. Within twenty days of receiving the Commission's observations, the Contractor will submit additional information or another report.

1.3.2. Final report

Draft final study report, including the following sections:

- Separate executive summary of around 10 pages containing a description of the most important findings, in easy-to-understand terms
- Main report
- Guide on best practices.

The draft final study report shall be made available to the Commission's services one week before the final meeting.

Final meeting report, that will contain the minutes of discussions and agreements reached in the final meeting. It shall be made available to the Commission's services one week after the Final meeting.

Supporting documents for the public workshop shall be made available to the Commission's services one week before the workshop.

Record of the workshop proceedings shall be made available to the Commission's services two weeks after the workshop.

The **final study report** shall be made available to the Commission's services within 12 months after signature of the contract. The Commission shall have twenty days from receipt to approve or reject the final report, and the Contractor shall have twenty days to submit additional information or a new final report.

All the reports and all supporting document for the workshop shall be drafted in **English**.

1.3.3. Report format and publication

Three copies of the reports shall be supplied in paper form and one copy in electronic form, either in MS Word or in HTML format.

The Commission may publish the results of the study. For this purpose, the tenderer must ensure that the study is not subject to any restrictions deriving from intellectual property rights of third parties. Should he intend to use data in the study, which cannot be published, this must be explicitly mentioned in the offer.

1.4. Duration of the tasks

The duration of the tasks shall not exceed fourteen months. This period is calculated in calendar days.

1.5. Place of performance

The tasks will be performed on the Contractor's premises. However, meetings between the contractor and the Commission may be held on Commission premises in Brussels.

1.6. Estimate of the amount of work involved

The amount of work involved to carry out this contract is assessed at 200 person-days.

II. TERMS OF CONTRACT

In drawing up his offer, the tenderer should bear in mind the provisions of the draft contract attached to this invitation to tender (Annex 5). Any limitation, amendment or denial of the terms of contract will lead to automatic exclusion from the procurement procedure.

The Commission may, before the contract is signed, either abandon the procurement procedure or cancel the award procedure without the tenderers being entitled to claim any compensation.

II.1. Terms of payment

Payments shall be made in accordance with the provisions specified in Annex 5, the draft service contract

II.2. Financial guarantees

Guarantee on pre-financing

For any pre-financing higher than 150,000 EUR, a financial guarantee equivalent to the amount of the pre-financing will be requested.

Depending on the financial situation of the tenderer, the Commission may ask for the financial guarantee for amounts lower than 150,000 EUR.

II.3. Subcontracting

If the tenderer intends to subcontract part of the service, he shall indicate in his offer which part will be subcontracted and to what extent (% of the total contract value).

Tenderers must ensure that Article II.17 of the contract (Annex 5) can be applied to subcontractors. Once the contract has been signed, Article II.13 of the above-mentioned contract shall govern the subcontracting.

II.4. Legal form to be taken by the grouping of service providers to whom the contract is awarded (if applicable)

Groupings, irrespective of their legal form, may submit bids. Tenderers may, after forming a grouping, submit a joint bid on condition that it complies with the rules of competition. Such groupings (or consortium) must specify the company or person heading the project and must also submit a copy of the document authorising this company or person to submit a bid. If awarded, the contract will be signed by the company or the person heading the project, who will be, vis à vis the Commission, the only contracting party responsible for the performance of this contract. Tenders from a consortium of firms or groups of service providers, contractors or suppliers must specify the role, qualifications and experience of each member of the consortium or group. Each member must provide all the necessary documents for assessing the bid as a whole with regard to the exclusion criteria, selection criteria (in their entirety) and award criteria.

III. FORM AND CONTENT OF THE TENDER

III.1. General

Tenders must be written in **one of the official languages** of the European Union.

Tenders must be clear and concise, with continuous page numbering, and assembled in a coherent fashion (e.g. bound or stapled, etc...). Since tenderers will be judged on the content of their written bids, they must make it clear that they are able to meet the requirements of the specifications.

III.2. Structure of the tender

All tenders must include three sections i.e. an administrative, a technical and a financial proposal.

III.2.1. Section One: administrative proposal

This section must provide the following information, set out in the standard identification forms attached to these tender specifications (Annexes 1, 2 and 3):

- Tenderers' identification (Annex 1)
 - All tenderers must provide proof of **registration**, as prescribed in their country of establishment, on one of the **professional or trade registers** or provide a declaration or certificate.
 - If the tenderer is a natural person, he/she must provide a copy of the identity card/passport or driving licence and proof that he/she is covered by a social security scheme as a self-employed person.

Each tenderer (including subcontractor(s) or any member of a consortium or grouping) must complete and sign the identification forms in Annex 1 and also provide above-mentioned documents. However, the subcontractor(s) shall not be required to fill in or provide those documents when the services represent less than 20% of the contract.

- Financial identification (Annex 2)

The **bank identification form** must be filled in and signed by an authorised representative of the tenderer and his/her banker. A standard form is attached in Annex 2 and a specific form for each Member State is available at the following Internet address:

http://ec.europa.eu/budget/info_contract/ftiers_en.htm

In the case of a grouping, this form must only be provided by the person heading the project.

- Legal entities (Annex 3)

The legal entity form in Annex 3 must be filled in and should be accompanied by a number of supporting documents, available on the Web site:

http://ec.europa.eu/budget/info_contract/legal_entities_en.htm

In the case of a grouping, this form must only be provided by the person heading the project.

The Commission reserves the right, however, to request additional evidence in relation to the bid submitted for evaluation or verification purposes within a time-limit stipulated in its request.

III.2.2. Section Two: Technical proposal

This section is of great importance in the assessment of the bids, the award of the contract and the future execution of any resulting contract.

Some guidelines are given below, but attention is also drawn to the award criteria, which define those parts of the technical proposal to which the tenderers should pay particular attention. The technical proposal should address all matters laid down in the specifications and should include models, examples and technical solutions to problems raised in the specifications. The level of detail of the tender will be extremely important for the evaluation of the tender. Tenderers must present in their bids a proposal on the methodology and the organisation of the work to carry out in the framework of the study.

Tenderers shall provide a list of experts selected to work on this study identified by their name and an indication of man-days of work for each expert.

The technical proposal must provide all the information needed for the purpose of awarding the contract.

III.2.3. Section Three: Financial proposal

All tenders must contain a financial proposal. The tenderer's attention is drawn to the following points:

- Prices must be quoted in **euros**, including the countries which are not in the euro-area. As far as the tenderers of those countries are concerned, they cannot change the amount of the bid because of the evolution of the exchange rate. The tenderers choose the exchange rate and assume all risks or opportunities relating to the rate fluctuation.
- Prices must be fixed amounts and include all expenses, such as travel expenses and daily allowances.
- **Prices should be quoted free of all duties, taxes and other charges, i.e. also free of VAT**, as the European Union is exempt from such charges in the EU under Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Union of 8 April 1965 (OJ L 152 of 13 July 1967). Exemption is granted to the Commission by the governments of the Member States, either through refunds upon presentation of documentary evidence or by direct exemption. For those countries where national legislation provides an exemption by means of a reimbursement, the amount of VAT is to be shown separately. In case of doubt

about the applicable VAT system, it is the tenderer's responsibility to contact his or her national authorities to clarify the way in which the European Union is exempt from VAT;

- **Prices shall be** fixed and not subject to revision during the performance of the contract;
- For each category of staff involved in the project, the tenderer must specify:
 - the total labour costs;
 - **the daily rates** and **total number of days** (man/days) each member of staff will contribute to the project;
 - other categories of costs, indicating the nature of the cost, the total amount, the unit price and the quantity.

Bids involving more than one service provider (consortium) must specify the amounts indicated above for each provider.

IV. ASSESSMENT AND AWARD OF THE CONTRACT

The assessment will be based on each tenderer's bid.

All the information will be assessed in the light of the criteria set out in these specifications. The procedure for the award of the contract, which will concern only admissible bids, will be carried out in three successive stages.

The aim of each of these stages is:

- 1) to check on the basis of the exclusion criteria, whether tenderers can take part in the tendering procedure;
- 2) to check on the basis of the selection criteria, the technical and professional capacity and economic and financial capacity of each tenderer;
- 3) to assess on the basis of the award criteria each bid which has passed the exclusion and selection stages.

IV.1. Exclusion criteria (exclusion of tenderers)

IV.1.1. Exclusion criteria (Article 93 Financial Regulation⁶)

1. To be eligible for participating in this contract award procedure, tenderers must not be in any of the following situations:

information required by the contracting authority as a condition of participation in a contract procurement procedure or by the authorising officer as a condition of participation in a grant award procedure, for failing to supply this information or for having been declared to be in serious breach of their obligations under contracts or grants covered by the Union budget.

2. The cases referred to in point IV.1.1. e) above shall be the following:
 - a) cases of fraud as referred to in Article 1 of the Convention on the protection of the European Communities' financial interests established by the Council Act of 26 July 1995 (OJ/C 316 of 27.11.1995, p. 48);
 - b) cases of corruption as referred to in Article 3 of the Convention on the fight against corruption involving officials of the European Communities or officials of Member States of the European Union, established by the Council Act of 26 May 1997 (OJ/C 195 of 25.6.1997, p. 1);

IV.1.2. Other cases of exclusion (Article 94 Financial Regulation)

Contracts will not be awarded to tenderers who, during the procurement procedure:

- a) **are subject to a conflict of interest;**

Tenderers must declare:

- that they do not have any conflict of interest in connection with the contract; a conflict of interest could arise in particular as a result of economic interests, political or national affinities, family or emotional ties, or any other relevant connection or shared interest;
- that they will inform the contracting authority, without delay, of any situation constituting a conflict of interest or which could give rise to a conflict of interest;
- that they have not made and will not make any offer of any type whatsoever from which an advantage can be derived under the contract;
- that they have not granted and will not grant, have not sought and will not seek, have not attempted and will not attempt to obtain, and have not accepted and will not accept, any advantage, financial or in kind, to or from any party whatsoever, constituting an illegal practice or involving corruption, either directly or indirectly, as an incentive or reward relating to the award of the contract.

The Commission reserves the right to check the above information.

- b) **are guilty of misrepresentation** in supplying the information required by the contracting authority as a condition of participation in the procurement procedure or fail to supply this information.
- c) find themselves in one of the **situations of exclusion**, referred to in paragraph IV.1.1. above for this procurement procedure.

⁷ Council Regulation (EC, Euratom) n° 1605/2002 of 25 June 2002 on the Financial regulation applicable to the general budget of the European Communities, OJ L 248 of 16 September 2002, p. 1, amended by Council Regulation (EC, Euratom) n° 1995/2006 of 13 December 2006, OJ L 390 of 30 December 2006, p.1.

IV.1.3. Evidence to be provided by the tenderers

1. When submitting their bids, each tenderer (including subcontractor(s) or any member of a consortium or grouping) shall provide a declaration on their honour, duly signed and dated, stating that they are not in one of the situations mentioned above (cf. IV.1.1 and VI.1.2). For that purpose, they must complete and sign the form attached in Annex 4. Where the tenderer is a legal entity, they shall, whenever requested by the Commission, provide information on the ownership or on the management, control and power of representation of the legal entity.
2. The tenderer to whom the contract is to be awarded shall provide, within 15 calendar days after notification of the results of the procurement procedure and in any case before the signature of the contract, the following evidence, confirming the declaration referred to above:

The Commission shall accept, as satisfactory evidence that the tenderer is not in one of the situations described in point IV.1.1 (a), (b) or (e) above, a recent extract from the judicial record or, failing that, an equivalent document recently issued by a judicial or administrative authority in the country of origin or provenance showing that those requirements are satisfied.

The Commission accepts, as satisfactory evidence that the tenderer is not in the situation described in point IV.1.1 (d) above, a recent certificate issued by the competent authority of the State concerned.

Where no such document or certificate is issued in the country concerned, it may be replaced by a sworn or, failing that, a solemn statement made by the interested party before a judicial or administrative authority, a notary or a qualified professional body in his country of origin or provenance.

3. Depending on the national legislation of the country in which the candidate or tenderer is established, the documents referred to in paragraph 1 and 2 above shall relate to legal and/or natural persons including, if applicable with regard to points b) and e), company directors or any person with powers of representation, decision-making or control in relation to the tenderer.
4. When the subcontracted part is above 20% of the contract value, the subcontractor(s) must also provide the above-mentioned declaration on honour. In case of doubt on this declaration on the honour, the contracting authority may also request the evidence referred to in paragraphs 2 and 3 above.
5. The Commission reserves the right to request any other document relating to the proposed tender for evaluation and verification purpose, within a delay determined in its request.

Remark:

The tenderers will be waived of the obligation to submit the documentary evidence above mentioned if such evidence has already been submitted for the purposes of another procurement procedure launched by the Directorates General in charge of Energy or Transport and provided that the documents are not more than one year old starting from their issuing date and that they are still valid. In such a case, the tenderer shall declare on his honour that the documentary evidence has already been provided in a previous procurement

procedure, specifying the reference of the call for tender for which the documents have been provided, and confirm that no changes in his situation have occurred.

IV.1.4. Administrative and financial penalties

Without prejudice to the application of penalties laid down in the contract, candidates or tenderers and contractors who have been found guilty of misrepresentation in supplying the information required by the contracting authority as a condition of participation in the procurement procedure or have failed to supply this information or have been declared to be in serious breach of their obligations under contracts covered by the Union budget may be subject to administrative or financial penalties, in accordance with Article 96 of the Financial Regulation and Articles 134b and 133a of the Implementing Rules.⁸

IV.2.2. Technical and professional capacity – Criteria and references required

The tenderers must have:

- at least two experts on railway interoperability and safety issues, with min. 5 years of experience in the relevant sectors;

ARTICLE II.3 - CONFLICT OF INTERESTS

Such conflict of interests could arise in particular as a result of economic interest, political or national affinity, family or emotional ties, or any other relevant connection or shared interest. Any conflict of interests which could arise during performance of the Contract must be notified to the Commission in writing without delay. In the event of such conflict, the Contractor shall immediately take all necessary steps to resolve it.

The Commission reserves the right to verify that such measures are adequate and may require additional measures to be taken, if necessary, within a time limit which it shall set. The Contractor shall ensure that his staff, board and directors are not placed in a situation which could give rise to conflict of interests. The guarantor shall pay to the Commission at its request an amount corresponding to payments made by it to the Contractor which have not yet been covered by equivalent work on his part.

The guarantor shall stand as first-call guarantor and shall not require the Commission to have recourse against the principal debtor (the Contractor).

The guarantee shall specify that it enters into force at the latest on the date on which the Contractor receives the pre-financing. The Commission shall release the guarantor from its obligations as soon as the Contractor has demonstrated that any pre-financing has been covered by equivalent work. The guarantee shall be retained until the pre-financing has been deducted from interim payments or payment of the balance to the Contractor. It shall be released the following month. The cost of providing such guarantee shall be borne by the Contractor.

II.4.2. Interim payment:

At the end of each of the periods indicated in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- an interim technical report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer;
- statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations or information enclosed.

Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

II.4.3. Payment of the balance:

Within sixty days of completion of the tasks referred to in Annex I the Contractor shall submit to the Commission a formal request for payment accompanied by those of the following documents which are provided for in the Special Conditions:

- a final technical report in accordance with the instructions laid down in Annex I;
- the relevant invoices indicating the reference number of the Contract to which they refer;
- statements of reimbursable expenses in accordance with Article II.7.

If the report is a condition for payment, on receipt the Commission shall have the period of time indicated in the Special Conditions in which:

- to approve it, with or without comments or reservations, or suspend such period and request additional information; or
- to reject it and request a new report.

If the Commission does not react within this period, the report shall be deemed to have been approved. Approval of the report does not imply recognition either of its regularity or of the authenticity, completeness or correctness of the declarations and information enclosed.

Where the Commission requests a new report because the one previously submitted has been rejected, this shall be submitted within the period of time indicated in the Special Conditions. The new report shall likewise be subject to the above provisions.

ARTICLE II.5 – GENERAL PROVISIONS CONCERNING PAYMENTS

II.5.1. Payments shall be deemed to have been made on the date on which the Commission's account is debited.

II.5.2. In case of doubt on the eligibility of the expenditure indicated in the payment request, the Commission may suspend the time limit for payment for the purpose of further verification, including an on-the-spot check, in order to ascertain, prior to payment, that the expenditure is eligible.

The Commission shall notify the Contractor accordingly by registered letter with acknowledgment of receipt or equivalent. Suspension shall take effect from the date of dispatch of the letter. The remainder of the period referred to in Article I.4 shall begin to run again once the suspension has been lifted.

II.5.3. In the event of late payment the Contractor shall be entitled to interest, provided the calculated interest exceeds EUR 200. In case interest does not exceed EUR 200, the Contractor may claim interest within two months of receiving the payment. Interest shall be calculated at the rate applied by the European Central Bank to its most recent main refinancing operations (“*the reference rate*”) plus seven percentage points (“*the margin*”). The reference rate in force on the first day of the month in which the payment is due shall apply. Such interest rate is published in the C series of the Official Journal of the European Union. Interest shall be payable for the period elapsing from the calendar day following expiry of the time limit for payment up to the day of payment. Suspension of payment by the Commission may not be deemed to constitute late payment.

ARTICLE II.6 – RECOVERY

- II.6.1.** If total payments made exceed the amount actually due under the Contract or if recovery is justified in accordance with the terms of the Contract, the Contractor shall reimburse the appropriate amount in euro on receipt of the debit note, in the manner and within the time limits set by the Commission.
- II.6.2.** In the event of failure to pay by the deadline specified in the request for reimbursement, the sum due shall bear interest at the rate indicated in Article II.5.3. Interest shall be payable from the calendar day following the due date up to the calendar day on which the debt is repaid in full.
- II.6.3.** The Commission may, after informing the Contractor, recover amounts established as certain, of a fixed amount and due by offsetting, in cases where the Contractor also has a claim on the Union that is certain, of a fixed amount and due. The Commission may also claim against the guarantee, where provided for.

ARTICLE II.7 - REIMBURSEMENTS

- II.7.1.** Where provided by the Special Conditions or by Annex I, the Commission shall reimburse the expenses which are directly connected with execution of the tasks on production of original supporting documents, including receipts and used tickets.

 - b)** travel by boat or rail shall be reimbursed up to the maximum cost of a first class ticket;
 - c)** travel by car shall be reimbursed at the rate of one first class rail ticket for the same journey and on the same day;
 - d)** travel outside Union territory shall be reimbursed under the general conditions stated above provided the Commission has given its prior written agreement.
- II.7.4.** Subsistence expenses shall be reimbursed on the basis of a daily allowance as follows:
- a)** for journeys of less than 200 km (return trip) no subsistence allowance shall be payable;

- b) daily subsistence allowance shall be payable only on receipt of a supporting document proving that the person concerned was present at the place of destination;
- c) daily subsistence allowance shall take the form of a flat-rate payment to cover all subsistence expenses, including accommodation, meals, local transport, insurance and sundries;
- d) daily subsistence allowance, where applicable, shall be reimbursed at the rate specified in Article I.3.3.

II.7.5. The cost of shipment of equipment or unaccompanied luggage shall be reimbursed provided the Commission has given prior written authorisation.

ARTICLE II.8 – OWNERSHIP OF THE RESULTS - INTELLECTUAL AND INDUSTRIAL PROPERTY

Any results or rights thereon, including copyright and other intellectual or industrial property rights, obtained in performance of the Contract, shall be owned solely by the Union, which may use, publish, assign or transfer them as it sees fit, without geographical or other limitation, except where industrial or intellectual property rights exist prior to the Contract being entered into force.

ARTICLE II.9 – CONFIDENTIALITY

II.9.1. The Contractor undertakes to treat in the strictest confidence and not make use of or divulge to third parties any information or documents which are linked to performance of the Contract. The Contractor shall continue to be bound by this undertaking after completion of the tasks.

II.9.2. The Contractor shall obtain from each member of his staff, board and directors an undertaking that they will respect the confidentiality of any information which is linked, directly or indirectly, to execution of the tasks and that they will not divulge to third parties or use for their own benefit or that of any third party any document or information not available publicly, even after completion of the tasks.

ARTICLE II.10 - USE, DISTRIBUTION AND PUBLICATION OF INFORMATION

II.10.1. The Contractor shall authorise the Commission to process, use, distribute and publish, for whatever purpose, by whatever means and on whatever medium, any data contained in or relating to the Contract, in particular the identity of the Contractor, the subject matter, the duration, the amount paid and the reports. Where personal data is concerned, Article I.8 shall apply.

- II.10.2.** Unless otherwise provided by the Special Conditions, the Commission shall not be required to distribute or publish documents or information supplied in performance of the Contract. If it decides not to publish the documents or information supplied, the Contractor may not have them distributed or published elsewhere without prior written authorisation from the Commission.
- II.10.3.** Any distribution or publication of information relating to the Contract by the Contractor shall require prior written authorisation from the Commission and shall mention the amount paid by the Union. It shall state that the opinions expressed are those of the Contractor only and do not represent the Commission's official position.
- II.10.4.** The use of information obtained by the Contractor in the course of the Contract for purposes other than its performance shall be forbidden, unless the Commission has specifically given prior written authorisation to the contrary.

ARTICLE II. 11 – TAXATION

- II.11.1.** The Contractor shall have sole responsibility for compliance with the tax laws which apply to him. Failure to comply shall make the relevant invoices invalid.
- II.11.2.** The Contractor recognises that the Commission is, as a rule, exempt from all taxes and duties, including value added tax (VAT), pursuant to the provisions of Articles 3 and 4 of the Protocol on the Privileges and Immunities of the European Union.
- II.11.3.** The Contractor shall accordingly complete the necessary formalities with the relevant authorities to ensure that the goods and services required for performance of the Contract are exempt from taxes and duties, including VAT.
- II.11.4.** Invoices presented by the Contractor shall indicate his place of taxation for VAT purposes and shall specify separately the amounts not including VAT and the amounts including VAT.

ARTICLE II.12 – FORCE MAJEURE

- II.12.1.** Force majeure shall mean any unforeseeable and exceptional situation or event beyond the control of the contracting parties which prevents either of them from performing any of their obligations under the Contract, was not due to error or negligence on their part or on the part of a subcontractor, and could not have been avoided by the exercise of due diligence. Defects in equipment or material or delays in making it available, labour disputes, strikes or financial problems cannot be invoked as force majeure unless they stem directly from a relevant case of force majeure.

II.12.2. Without prejudice to the provisions of Article II.1.8, if either contracting party is faced with force majeure, it shall notify the other party without delay by registered letter with acknowledgment of receipt or equivalent, stating the nature, likely duration and foreseeable effects.

II.12.3. Neither contracting party shall be held in breach of its contractual obligations if it has been prevented from performing them by force majeure. Where the Contractor is unable to perform his contractual obligations owing to force majeure, he shall have the right to remuneration only for tasks actually executed.

II.13.3. The Contractor shall make sure that the subcontract does not affect rights and guarantees to which the Commission is entitled by virtue of the Contract, notably Article II.17.

ARTICLE II.14 – ASSIGNMENT
